

## Resource Hero Status Fields

Description	Field Type	Field Label	Field Name	Default Value	API Name
Works on custom objects in Enterprise editions and above. When checked, forces RH Exclude from Utilization Coloring, RH Exclude on Resources Tab, and RH Exclude on Resources Tab checkboxes to be true.	Checkbox	RH Archive Resource Assignments	RH_Archive_Resource_Assignments	Unchecked	RH_Archive_Resource_Assignments__c
Controls whether the assignments and forecasts will be included in allocation coloring on the matrix. If unchecked (default), all assignments and forecasts will be taken into account when determining allocation coloring for the related Resource. If checked, all assignments and forecasts will be excluded for allocation coloring for the related Resource.	Checkbox	RH Exclude from Utilization Coloring	RH_Exclude_from_Utilization_Coloring	Unchecked	RH_Exclude_from_Utilization_Coloring__c
Controls whether resource assignments and forecasts are displayed on the matrix of related resources on the Resources tab. If unchecked (default), assignments and forecasts for the Opportunity will be shown when viewed from the Resource tab. If checked, assignments and forecasts for the Opportunity will be hidden when viewed from the Resource tab.	Checkbox	RH Exclude on Resources Tab	RH_Exclude_on_Resources_Tab	Unchecked	RH_Exclude_on_Resources_Tab__c
Controls whether assignments and forecasts are displayed as read only within the matrix. If unchecked (default), assignments and forecasts for the Opportunity will be editable unless read only due to record visibility or matrix force-read settings. If checked, the assignments and forecasts for the Opportunity will be read only, regardless of record visibility or matrix force-read settings.	Checkbox	RH Make Read Only	RH_Make_Read_Only	Unchecked	RH_Make_Read_Only__c
